

# International Journal of Operations Research

**Tripathi**

EOQ Model for Deteriorating Items with Linear Time Dependent Demand Rate under Permissible Delay in Payments

**Lin, Wu and Sheu**

Continuous Min-Max Programs with Semi-Infinite Constraints

**Haridass and Arumuganathan**

Optimum Cost Analysis of a Bulk Queueing System with Multiple Vacations and Restricted Admissibility of Arriving Batches

**Liu and Wu**

A Mixed-Integer Hybrid Differential Evolution Method for Multi-Objective Reliability Problems

**Wu, Hung and Chiang**

A Hybrid Electromagnetism-like Mechanism: A Metaheuristic Algorithm for Solving the Travelling Salesman Problem
